Hypnotic is the strongest maternal cow we have ever owned. Her daughters match her production with enhanced horn growth. She is raising the second largest calf in the whole herd (over 150 head) in 2022 at age 15...she's the real deal. Her daughters and granddaughters are the best of the best in milk production, maternal viability, weaning weights, yearling weights, and fertility. This old blue roan cow is priceless.
